

Carta de Liv Helvik Skjaerven, directora de BBAM

You are welcome to forward this email to physiotherapy colleagues and institutions, who want to deepen knowledge, therapeutic skills and general competence, within the Movement Awareness Domain, with Movement Quality in focus, a core in physiotherapy; see attached [POSTER](#) on the post-graduate, part-time, international study programme in **Basic Body Awareness Methodology (BBAM)** at Bergen University College, Bergen, Norway (60 ECTS).

The study program has **no fee**, it's free funded by the Norwegian government. Through BBAM you meet a dynamic and professional learning environment within physiotherapy, set at an international and cross cultural standard. The education is designed for physiotherapists who want to develop professional and personal.

The 1st application is March 2015, see STEPS on how to apply , attached to this email. In this, you also find the curriculum and further information on BBAM.

The study program, BBAM, **starts 19th of October 2015, at 10.15**, with block one (1) consisting of **4 obligatory weeks at Bergen University College, HiB**, (from 19th of October till Friday 13th , at 12.00, of November)

The study-program, BBAM, is for English speaking physiotherapists, and is accepted at HiB to be at a master of science level.

Fall 2015 is the 7th start of the BBAM education, and about 80 PT has graduated from BBAM at Bergen University College from 2003 - 2013.

The BBAM teaching environment is at the New Bergen University College, CAMPUS KRONSTAD – close to the Center of Bergen, within an easy transportation system.

Teachers connected to BBAM are internationally known clinicians, researchers and educators in the field, participating in the International Organization of Physical Therapy in Mental Health (IOPTMH), subgroup if WCPT.

[Be very welcome](#) to contact us for further information.

On behalf of Bergen University College, we thank you for the contribution of spreading the information of study program of Basic Body Awareness Methodology, welcoming colleagues to apply or applying yourself!

Kind regards from
Liv Helvik Skjaerven
